**SLAT PANELS**

# FREEDOM BEGINS AT HOME

At Kings Canyon we believe that a real freedom begins at home, and the interior is more about your individual needs and lifestyle rather than a specific style. That is why we inspire, advise and provide comprehensive interior design solutions - matched collections of furniture, doors, floors and decorative walls.

## Kings Canyon PANELS.

## WALLS WITH DEPTH

Each element of the interior matters. They all affect its atmosphere and the way we feel about it. That is why, when we finish walls, we need to decide what role they will play – the quiet hero in the background or the crowning glory of the interior. Irrespective of your choice, the Kings Canyon panels will help you to achieve your goal. They will give the interior a unique character and help to designate different zones.

The final effect depends on which of the three available lines you choose – we offer lines Fine-F, Medium-M, or Strong-S, which differ in the width and depth of the slats and in colours. Light Brown, Coffee Brown, and Dark Brown shades will be perfect for home interior.

## KINGS CANYON FINE-F

Fine-F panels with the narrowest slats will emphasize the height of the room and give it a unique atmosphere. Lay them on a selected part of the wall to visually define different zones in the interior and create a functional, calming background for your leisure activities.

## KINGS CANYON STRONG-S

Use the Kings Canyon panels to create different zones at home. A home office in the living room or in the bedroom? Panels with the widest slats installed behind the desk will visually separate the work area from the rest of the room and add a cosy touch to your corner.

## PANEL FEATURES

### EASY INSTALLATION

The installation of panels is quick and easy. They are mounted with glue and can be easily cut to the desired size using a saw or jigsaw.

### LOW WEIGHT

panels are made of polystyrene. This makes them light, which means that the transport and mounting of the product are very easy.

### IMPROVE SOUNDPROOFING

Thanks to the material they are made of and their spatial structure, the panels soundproof the interior and eliminate reverberation and echo in large rooms.

### EASY TO KEEP CLEAN

To clean the panels, use a damp cloth with a mild detergent.

### RECYCLABLE

panels are made of fully recyclable material.

# PRACTICAL MATERIAL

panels owe their unique properties to the material from which they are made. To manufacture the panels, we use polystyrene covered with a print made by hot-stamping. Polystyrene is a modern material that is 100% recyclable. It is lightweight, durable, and easy to clean. This means that can be installed even in more demanding areas, such as the hallway, work area, or the kitchen.

# EASY INSTALLATION

Remarkable effect with little effort? With panels, it is possible. Installation is easy and intuitive, just follow a few simple steps to enjoy a beautiful wall.

## STEP 1

Panels can be mounted vertically, horizontally, and diagonally. If you want to trim them, use a handsaw, jigsaw, or table saw.

## STEP 2

Apply adhesive on the back of the panel in the shape of the letter „S“, then attach the panel to the wall.

## STEP 3

Always lay the panels starting from the left and then moving right and starting from the bottom, moving up.

## STEP 4

Remember to connect the panels carefully in the outer corner. All you have to do is slot them in one another at 90 degrees.

## FINISHING TRIMS

To finish the wall, use the system trims, which, like panels, are mounted with adhesive. For each of the panel types, you can choose the right and left trims, while the universal trim will allow you to finish the top and bottom of the wall.

# PANEL DIMENSIONS

# FINISHING TRIMS

Every detail is important in interior design, which is why we offer finishing trims in the colours of panels. Elegant panelling in the hallway, an openwork wall in the bedroom, or maybe a slatted wall and ceiling? Decide for yourself, and the finishing trims in Natural, Mocca, and Chocolate will complement the arrangement.
